

School Beliefs

Our Mission: Our mission at Quail Hollow Elementary is to prepare students for a quality life.

Our Motto: Our Quest for Quality is to be College and Career Ready

Our Responsibility: Elementary aged students need instruction in social skills, just as they need instruction in reading, writing and math. We explicitly teach social skills, provide guided practice of the skills and reinforcement during independent practice of the skills. Our goal is to help them master key social skills. We know they will make errors during the instructional process. We will help students correct current errors and work at preventing future errors.
